### **DETAILED ACTION**

Claims 1-8, 13, 14, 16 and 17 are currently pending in the instant application, are allowable over the prior art of record and are renumbered as claims 1-12.

### **EXAMINER'S AMENDMENT**

An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 22 December 2003, Peter Bernstein requested an extension of time for an additional 1 MONTH (for a total of 2 MONTHS, \$110.00 was previously paid on the 21 November 2003 for the first month) and authorized the Director to charge Deposit Account No. 19-1013/SSMP the additional required fee of \$300.00 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

1. Amend claim 17 to read as follows:
  17. A pharmaceutical composition comprising an effective amount of a compound of claim 1 and a pharmaceutically acceptable carrier.

### ***Oath/Declaration***

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

Art Unit: 1626

The oath or declaration is defective because:

It was not executed in accordance with either 37 CFR 1.66 or 1.68.

The signature and date of execution for inventor Lit-Fui Lau is missing.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance. This invention relates to products of the formula 1 wherein R4 is a quinolyl wherein R4 is optionally substituted with from one to three substituents R6. The novel and nonobvious aspect of this invention involves the R4 substituent. The closest prior art of record, US Patent No. 6150352, which discloses compounds of the formula (I) wherein the quinolyl ring is substituted by an oxo group and exemplifies compounds wherein the quinolyl ring is substituted by various other heterocycles, fails to teach or suggest the compound as instantly claimed wherein R4 is not substituted by an oxo group or a heterocycle but by the substituents R6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
